*"I had a very well established business in the construction industry. My business collapsed due to the bad economy, and my personal property was about to be foreclosed when some of the neighbors recommended that I should talk to Seema. Seema talked to our bank to get the loan modification taken care and then put our house in the market to get us out of this difficult situation. Within a month, she could secure three very good buyers and started working with the bank to consider a Short Sale. Not only did Seema explain the steps to us in great detail, she also guided us on how to navigate the complexities of this **SHORT SALE** transaction to come up with satisfactory payoffs to all the lien holders. She has excellent contacts with Attorneys and Bankers. I was in tremendous stress, my whole family and work life seemed upside down, and Seema could pull us out of it. Now, my morale is back and I can happily take care of my family.*
